PROFESSIONAL SUMMARY

I am Firoz, a passionate and dedicated Full-Stack Web Developer specializing in Next.js, Express.js, and modern database technologies. Although I am a fresher, I have built multiple real-world and highly useful projects that showcase strong problem-solving, clean coding standards, and scalable architecture. I enjoy creating fast, responsive, and user-friendly applications with seamless frontend-backend integration.

I am also familiar with Docker and AI-integrated applications, and I constantly explore new tools and technologies to innovate and deliver smart digital solutions. Motivated to learn, grow, and collaborate with teams to build impactful products.

EDUCATION

Bachelor of Science (B.Sc – Science Stream, Mathematics)

[R.R K Morarka Govt. College– [Jhun]hunu]

Year: 2025 – Present

Higher Secondary Education (12th – Science Stream, Mathematics)

Completed in 2024

[Lohiya Senior Secondary School – [Chirawa]

Additional Learning

Full-Stack Web Development (Self-Learning & Project-Based Practice)

Frontend Technologies: React, Next.js, Tailwind CSS

Backend Technologies: Node.js, Express.js, and MongoDB

Learning through documentation, tutorials, open-source projects & hands-on development

PROJECTS

Food Delivery App – Full-Stack (Next.js, Express.js, MongoDB, Stripe)

Built a complete food delivery platform with user authentication, food listing, cart system, order tracking, and online payment integration.

◆ Features: Add to Cart, Address Management, Real-Time Order Status, Stripe Payment

◆ Deployment: Frontend on Vercel | Backend on Render

Vidgn AI – AI Content Generation Platform

Tech: Next.js, Node.js, Tailwind CSS, AI APIs

A high-performance AI platform that allows users to generate videos, text-to-speech audio, and AI-based images in one place. Integrated multiple AI models for seamless and fast media creation with secure authentication.

Features: AI Video Generation · TTS Audio · AI Image Creation · Upload/Download · Fast Real-Time Processing

Filmy Vila – Movie Streaming and Download Web App

Tech: Next.js, Tailwind CSS, TMDB API

A movie streaming platform to watch and download movies with an attractive user interface integrated with TMDB API for real-time movie data.

Features: Online Streaming · Download Option · Movie Search & Categories · Trending & Popular Sections · Fully Responsive UI

Portfolio Website (Next.js + Framer Motion)

A personal developer portfolio with modern design and stunning animations to showcase projects and skills.

◆ Features: GSAP / Framer Motion Animations, Responsive Design, Contact Form, PWA Support

◆ Tech: Next.js, Tailwind CSS

SKILLS

◆ **Frontend Development**

- Proficient in HTML, CSS, and JavaScript
- Experienced with React.js and Next.js
- Knowledgeable in Tailwind CSS and ShadCN UI
- Focused on creating responsive and modern UI/UX
- Skilled in Framer Motion and GSAP animations
-

◆ **Backend Development**

- Expertise in Node.js and Express.js
- Capable of developing RESTful APIs
- Familiar with authentication and authorization (JWT/OAuth)

Competent in server-side logic and MVC architecture

Database Management

- Experienced with MongoDB and Mongoose
- Basic knowledge of MySQL
-

◆ **Tools & Technologies**

- Proficient in Git and GitHub
- Experienced with Docker
- Familiar with VS Code
- Skilled in Postman
- Knowledgeable in Firebase
- Experience in Stripe for payment integration
-

◆ **Additional Skills**

- Development of AI-integrated web applications
- Strong problem-solving and debugging abilities
- Committed to clean code architecture

Proficient in deployment using Vercel and Render
